

5 terms that decide how AI reads you

—
Ask ChatGPT who you are.
If the answer is outdated
or empty, these five concepts
explain why

Indifference Test

—
Neutrality you can verify:
the system shouldn't care
which brand wins the
recommendation

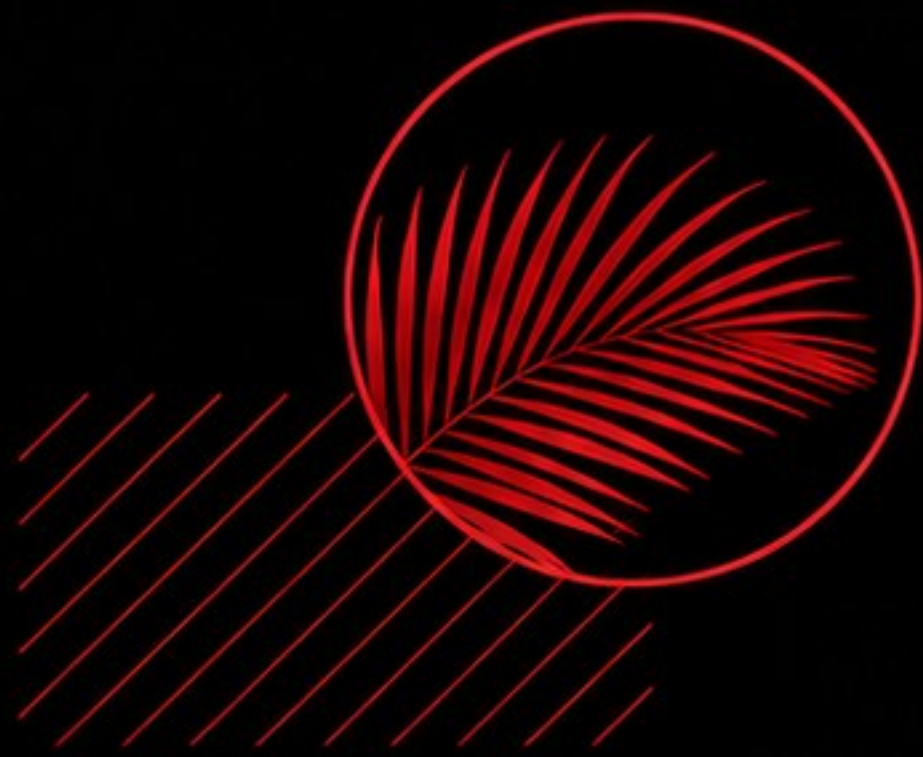

Public Decision Record

A public trail of your
judgment calls: the one
part of a founder's job
that doesn't delegate

First Customer Tax

—
Your first customer is
mathematically right to say no,
and the fix is repricing the deal,
not persuasion

Share of Model

Not share of voice but
share of model: how much
of you AI can reconstruct
from public sources

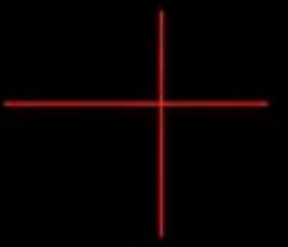

Founder Hub

The one place where
you're the source of truth.
The hub defines,
the platforms distribute

Three hubs. Three baselines. One public scorecard

—
I'm testing this on three real people, measured before and after across ChatGPT, Claude and Perplexity

Reach your rent. Truth you'd better own

Every term links to
an essay. Start at the hub
